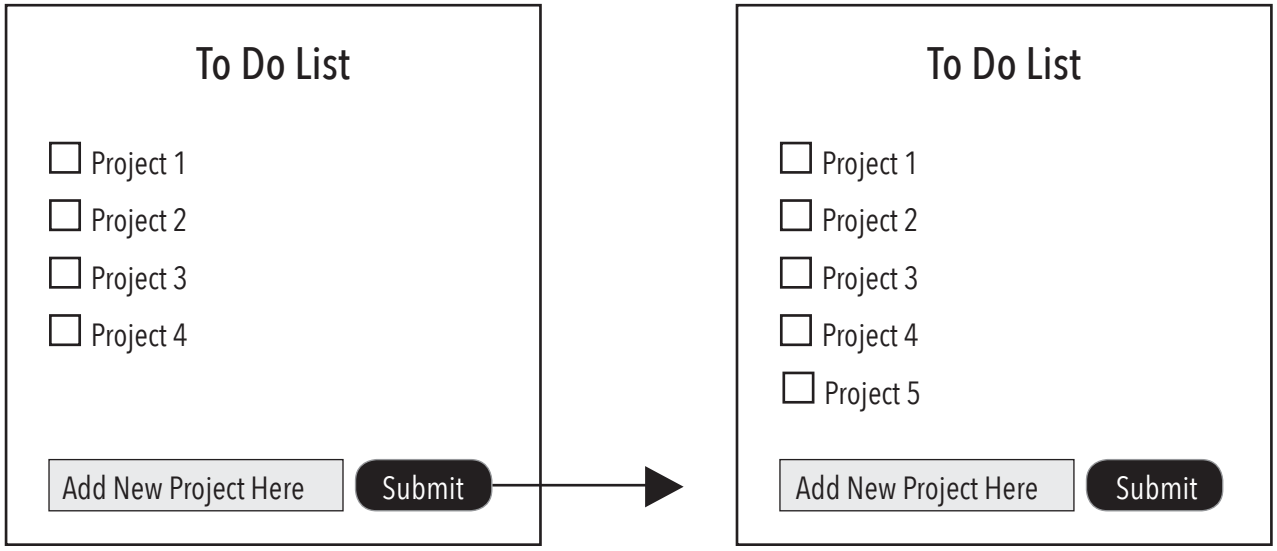
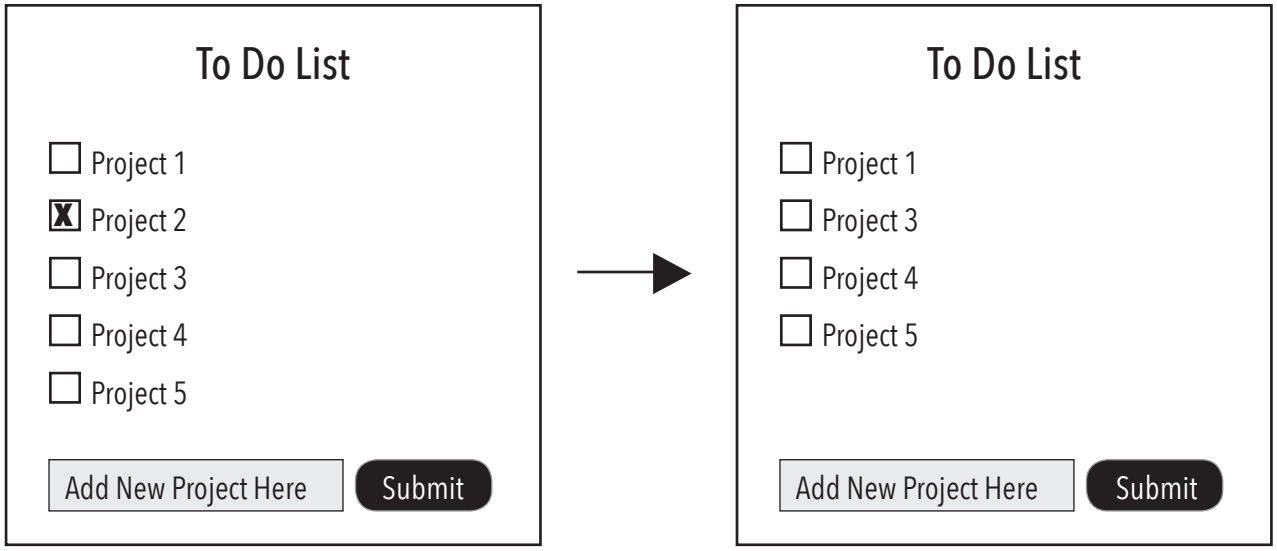
Quilting To Do List

Outline August 26, 2018 Version 1.0



The program will allow users to add new projects to the list. The list items will be saved within the program so the current list is intact each time the program is launched.



The program will also allow users to check off finished projects. The checked off item will be deleted from the program and only the remaining projects will display.

Other Requirements

- Create a brand.
- Make responsive.
- Validate submitted text.
